

Tanks In All Sizes For Any Application

Bradford White's high quality commercial large volume storage tanks are available in standard sizes ranging from 175 to 5,695 gallons. Buffer tanks are available in standard sizes ranging from 130 to 1,040 gallons. With multiple connection, interior lining, and exterior coating options, storage and buffer tanks can be configured for nearly every application. Custom sizes are also available.

Our modernized systems, equipment, and technology throughout the factory create a top-quality environment in which to manufacture top-quality products. Bradford White storage and buffer tanks are constructed using state of the art equipment, materials, and highly-trained craftsmanship. Innovation and constant attention to detail help ensure durability and reliability.

With well over a century of experience, you can depend on Bradford White for high quality products and solutions for any tank-type application. Bradford White remains an American-Owned company, providing American-Made products through Wholesale Distribution for Professional Installation. Our highest priority is to service and support you, the professional installer and wholesale distributor.

Bradford White storage tanks are uniquely designed and manufactured to meet the exact needs of your high volume commercial applications. Choose your specific tank size, features and options, and get a quality product made in America.

Committed to American Manufacturing, Wholesale Distribution, and Professional Installation.

Large Volume Storage and Buffer Tank Features and Options

Tank Orientation Options:

- Vertical Configuration – Minimizes the installed footprint of the tank
- Horizontal Configuration – Ideal when overhead clearance is an issue

Tank Lining Options:

- Vitraglas® lined An exclusive corrosion-resistant coating is bonded to the interior surfaces at 1600°F – Backed by a 5-year limited warranty
- Double Vitraglas® lined – The Vitraglas® lining process is repeated twice, providing a double layer of protection – Backed by a 10-year limited warranty
- Epoxy Lined – FDA Approved, corrosion-resistant lining is field repairable, max temp 180°F, includes 12" x 16" manway – Backed by a 1-year limited warranty
- Stainless Steel – Tanks manufactured of 316L Stainless Steel with 316, 304L, and 304 available upon request. Thickness - 10 gauge and up – Backed by a 1-year limited warranty

Pressure Rating Options:

- 125 PSI ASME Sec. IV Part HLW and Sec. VIII "U" Stamp
- 150 PSI ASME Sec. IV Part HLW and Sec. VIII "U" Stamp

Exterior Options:

- Bare (Red Oxide Primer)
- Jacketed & Insulated (Steel Jacket, 2" High Density Foam Insulation)
- Topcoat (Rigid Acrylic Topcoat coating over 2½" layer of High Density Foam)

Optional Tank Connections & Openings:

- ¾" – 4" NPT tappings
- 4" – 14" Flanges
- Hydrojet® HC Dielectric Recirculation Tube (for 3" NPT Heater Supply Fittings)
- Inlet Baffle (Available for all Heater Supply Fitting Sizes)
- 4" x 6" Handhole
- 12" x 16" Manway

Buffer Tanks:

- Adds thermal mass to the system which helps reduce boiler/chiller short-cycling
- Available in 9 sizes from 130 to 1,040 gallons
- Custom sizes, connections, and openings available upon request
- Standard air separator connection
- Optional Topcoat Insulation

Do You Need a Large Volume Storage Tank Quickly?

Ask your local Bradford White Distributor about the Quick Ship Program!
