Technical Information

All product dimensions are nominal.

Showerhead:

Rated maximum flow: 2 gal/min (7.6 l/min)

Pressure: 80 psi (5.5 bar)

Notes

Install this product according to the installation guide.

NOTICE: Risk of product damage. Long screws, for installing trim, can damage the K-2971-KS valve. Consult the trim installation guide to verify if the thin wall installation kit (88526) is needed.

Avoid cross-flow conditions. Do not install a shut-off device on either valve outlet.

Cap the shower outlet if deck-mount spout, diverter, or handshower is connected to the spout outlet.
