## THRESHOLD INSTALLATIONS

## FRAMING

## ADA / ANSI / CSA CLEARANCE

## INSTALLATION WARNING

Due to possible water leaks between the lip of the shower and the curtain, MAAX recommends the installation of a floor drain outside the unit, in rooms where the units will be installed. All our showers have an inside curb of 1/2" (13mm) height applicable to a transfer type use, precisely for the ADA standards.

**Important:** The finished height of the threshold must comply with the following canadian and american standards;

- Canada: height from 6 mm to 13 mm according to CAN/CSA B651 (Accessible and Usable Buildings and facilities).
- U.S.: 1/2" maximum height according to ADA/ANSI A117.1 (Accessible and Usable Buildings and facilities).

This standard does not apply to tub-showers.
