

# Your ultimate home comfort solutions

Two options for home heating

- **NCB-E combi-boilers for heating and hot water**
- **NHB condensing boilers for hydronic heating**

**KD navien®**

## A global leader in energy efficiency and home comfort

Today Navien retains the largest market share for condensing combi-boilers in North America; is ranked top in technology patents; and as a leading boilermaker, is the largest exporter of boilers from Korea. Navien proudly exports that leadership in dependability, design, green technology, social responsibility and customer service to over 30 countries. This assures world-class quality in every home.

## Control your Navien systems from anywhere in the world

The optional NaviLink Wi-Fi remote control will enable you to control temperatures remotely, access usage data and receive diagnostic notifications on your smartphones and/or tablets. Ask your Navien installer for more information.

THE LEADER IN CONDENSING TECHNOLOGY

# Navien NCB-E combi-boilers

Heating

Hot water

## Strong enough to support heating and hot water for the whole house

Navien NCB-E combi-boiler is the first high efficiency tankless combination boiler with the capacity to supply both heat (up to 120K BTU/H) and domestic hot water (up to 199K BTU/H) for larger homes — enough hydronic heat for a four bedroom house, plus hot water to run two showers and a dishwasher at the same time.

- **Compact space saving design**

17.3"W x 28"H x 12"D

- **Energy efficiency** — 95.0% earning Energy Star's Most Efficient rating

- **Three stainless steel heat exchangers**, two for heating and one specifically for hot water

- **Integrated Smart Control** protects against freezing, adjusts heat capacity and timing, resets domestic hot water priority

- **Natural or LP gas** compatibility (field convertible)
