

# NPE Series – the ultimate hot water solution

- All the hot water you need,  
for as long as you need it
- Lower energy bills
- Environmentally friendly

# Navien makes it easy to go tankless

- Endless hot water without wasting energy heating a tank
- Space saving - 80% smaller than traditional tank water heaters
- An integrated and easy to use control
- Cascading capabilities without an external control for larger homes
- 1/2" gas pipe capability up to 24 feet - use existing gas line for easy retrofit

- An industry leading warranty
- Dual stainless steel heat exchangers for longer life
- NPE-A ComfortFlow® exclusive integrated recirculation system
- Field gas convertibility from NG to LP
- 2" PVC venting up to 60 feet - use existing chase for easy retrofit

WE MAKE IT EASY TO GO TANKLESS

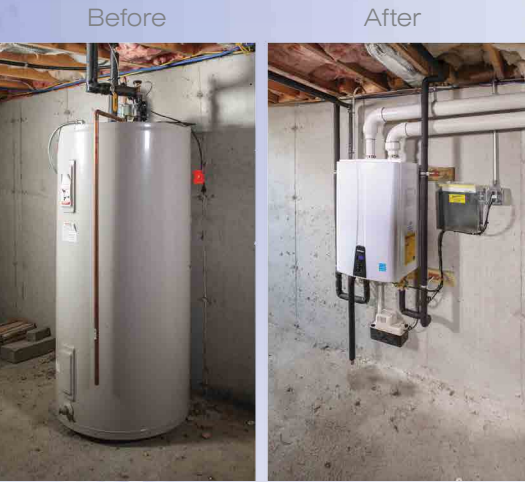

## Endless hot water

Navien tankless water heaters deliver a continuous flow of hot water for as long as you need it. There's no waiting for a storage tank to warm up and the hot water will never run out when sized correctly.

Only Navien NPE-A tankless water heaters offer ComfortFlow® technology to eliminate cold water shock associated with other tankless systems. Our unique buffer tank and recirculation pump assures faster delivery of heated water.

## Save space

The Navien NPE Series wall-mounted tankless water heaters are easy to install and occupy 80% less space than traditional 50 gallon tank-type heaters. Our largest unit is only 17.3"W x 27.4"H x 13.2"D.

## The industry's strongest residential warranty

Long life components, advanced technology and superior craftsmanship assure that your Navien tankless water heater will provide years of trouble-free service. For added peace of mind, we offer the industry's strongest warranty, including 15 years on the heat exchanger.

| Application          |                                      | Labor  | Parts   | Heat exchanger |
|----------------------|--------------------------------------|--------|---------|----------------|
| Residential          | Standard or controlled recirculation | 1 year | 5 years | 15 years       |
|                      | Uncontrolled recirculation           | 1 year | 3 years | 5 years        |
| Commercial or Combi* | Standard or controlled recirculation | 1 year | 5 years | 8 years        |
|                      | Uncontrolled recirculation           | 1 year | 3 years | 3 years        |

\*Combi refers to a combination potable water and space heating application. Water heaters cannot be used in space heating only applications. For complete details please refer to the full warranty at [www.Navien.com](http://www.Navien.com).

## Longer life

Navien was first to offer dual stainless steel heat exchangers, rather than copper. This extends the life of the unit by resisting corrosion. The units are also NG/LP convertible.

## Lower energy bills. Lower impact on the environment

Unlike systems that waste energy to heat large tanks of water, Navien tankless units utilize up to 99¢ of every \$1 to heat your water. Unlike a conventional tank system, it only fires up when hot water is needed allowing great utility savings and a lower impact on the environment. What's more, Navien tankless heaters reduce CO<sub>2</sub> output by 1,216.8 lbs.\* per year compared to traditional tank type heaters. This would be equal to saving 62 gallons of gasoline in your car\*\*

## Operating cost

Based on annual estimated residential use per DOE test criteria.

|                 |            |        |
|-----------------|------------|--------|
| Navien tankless | 151 therms | \$165* |
| Other tankless  | 183 therms | \$200* |
| Standard tank   | 250 therms | \$272* |

\*Based on a cost of \$1.22 per therm used.

## Credits and Rebates

There are a variety of energy efficiency credits and rebates available, depending on location. Visit [www.Navien.com](http://www.Navien.com) to learn more.

Peace of mind  
at your fingertips

## **Optional new Wi-Fi remote control system**

NaviLink makes it easy to communicate with your Navien systems anywhere internet service is accessible. The NaviLink module attaches easily to any new or existing\* Navien NPE series tankless water heater.

Relax...with NaviLink you will have the convenience and control of all your Navien systems right in the palm of your hand.

\*Units produced before 3/23/16 may require the purchase of a new main PCB and front control panel.

For more information contact your local Navien dealer.
