

Fernco Flexible Couplings for corrugated polyethylene drainage tubing.

Connects drainage/irrigation systems tubing to PVC sewer piping quickly and easily.

Fernco's NEW flexible couplings for corrugated polyethylene drainage tubing are designed to connect modern drainage and irrigation systems to PVC pipes quickly...easily.

Lightweight, flexible, heavy-duty PVC connectors fit tight.

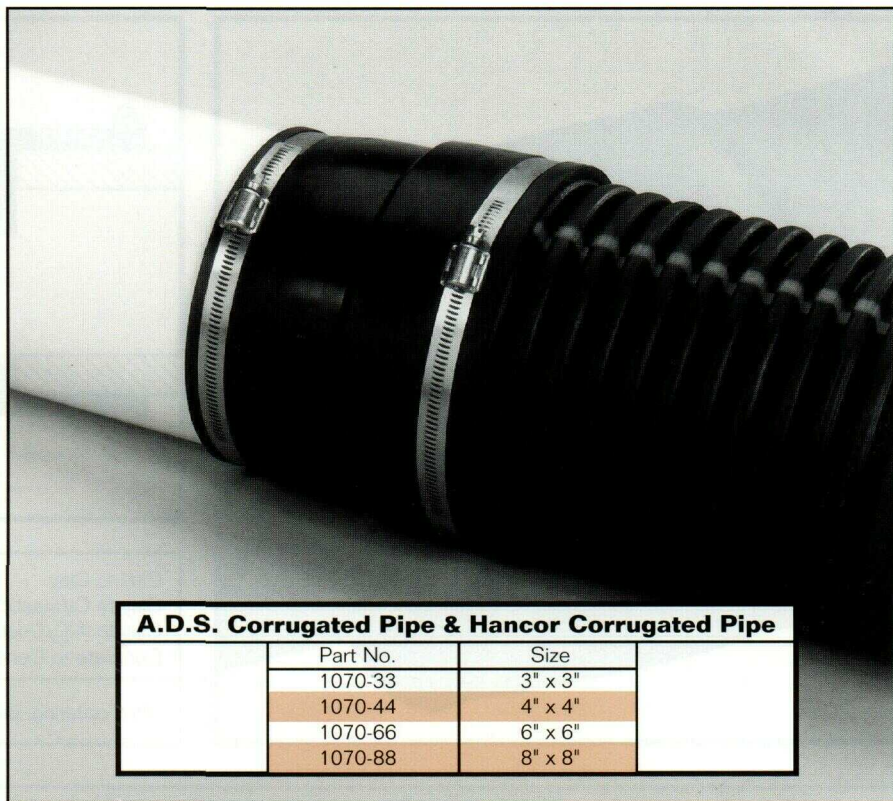

Ideal for use in storm and sub-soil drainage systems...farm irrigation systems...golf course drainage...

residential areas...anywhere corrugated polyethylene drainage and irrigation systems are connected to S & D or DWV plastic pipe.

Available in four sizes: 3" x 3", 4" x 4", 6" x 6", and 8" x 8".

FLEXIBLE COUPLINGS

for corrugated pipe.

A.D.S. Corrugated Pipe & Hancor Corrugated Pipe

	Part No.	Size	
	1070-33	3" x 3"	
	1070-44	4" x 4"	
	1070-66	6" x 6"	
	1070-88	8" x 8"	

Large Diameter Couplings

are ideal for repair, alterations or rehabilitation of large diameter sewer pipe. These couplings are made from flexible PVC and offer easy installation and leak free connections. They are engineered for use with all common sewer piping materials: clay, concrete, cast and ductile iron, asbestos/cement, plastic or fiberglass.

Note: Never install this type of coupling until you read and understand the installation instructions and verify the dimensions ordered.

LARGE DIAMETER COUPLINGS

For special or non-standard size couplings.

(Standard size couplings are listed on Pages 6-7 of this catalog)

L.D.C.X.

Features: Accommodates an O.D. difference of up to one inch* • 12.7 inches wide
 • 3/8 inch thick with multiple sealing ribs
 • 2 - Series 300 (18-8) all stainless steel, extra strength (.040 thick) T-bolt clamps with multiple take up points • Up to 150 in./lbs. of torque for greater sealing pressure.

Order by specifying the outside diameter (O.D.) of both pipes in inches.

*Where O.D. differences range from 1-1/4" - 4", a Fernco Bushing system is available .
