MegaPress® Flange P x F

Features

UPC Approved
IMC Approved
FM Approved
UL Approved

Temperature Range: 0°F to 250°F
Max. Operating Pressure: 200 psi

Viega® introduces six new flange configurations into its MegaPress product line.

Viega's flange P x F is designed for use with the MegaPress black iron pipe joining system. The new design allows installers the ability to easily transition to flanged fittings.

The flange P x F uses Viega's press end technology, eliminating the need for threading connections and saving valuable time.

The flange P x F is provided with a factory installed EPDM sealing element, a 304 stainless steel separator ring and a 420 stainless steel grip ring approved for use in hydronic heating, compressed air, fire sprinkler and cooling water applications.

Made of the finest quality carbon steel, the flange P x F is constructed with the patented Smart Connect® feature. The Smart Connect feature is a quick and easy way for installers to identify connections that need pressing.

Viega MegaPress fittings are designed for use in piping systems utilizing ASTM A53, A106, A135, and A795 Schedule 5 to Schedule 40 black iron pipe.

Part No	Size
25760	1/2"
25765	3/4"
25770	1"
25775	1 1/4"
25780	1 1/2"
25785	2"
