

# BrassCraft®

## Push Connect Technology

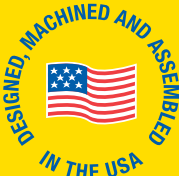

Connect with Confidence.  
Fast. Reliable. Durable.

## The Push Connect Technology Advantage

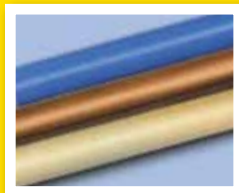

As a leading manufacturer of premium quality plumbing supplies for over 65 years, BrassCraft Manufacturing knows what plumbers want when their reputation is on the line—products that are fast, reliable and durable. And that's exactly what our push connect technology delivers.

Available in three watertight options, our push connect water stops are designed, machined and assembled in the USA, and are offered in both straight and angle configurations. Additional features and benefits of our push connect technology include:

- Smooth, quarter-turn operation
- Compatible with copper, PEX and CPVC
- 100% leak tested
- IAPMO and CSA certified

## Enhanced Technology – Prepped and Ready for Easy Installation

BrassCraft Manufacturing's push connect technology features a pre-inserted tube stiffener that will self-align with the tubing. The result is an "installation ready" water stop that creates a durable, watertight seal and doesn't require installation tools, soldering or glue.

## Push Connect Water Stop

BrassCraft Manufacturing's compact machined one-piece body configuration provides a slimmer design for tighter installation areas. This stop can be removed using our PCT-10-6 removal tool, packaged separately.

Item ID	Item Description	List Price	Qty	Lbs	UPC
G2PS09X C	1/2" Nom Push Connect x 1/4" OD Comp - Angle Stop	\$ 31.97	60	18	026613142180
