FEATURES

Certification
UL

- Can be used with 12V & 24V LED products
- Two functions of the sensor:
    1. Mount inside a cabinet – open door to activate light
    2. Mount under cabinet – lights are activated with hand waive
- 2-4" detection range, so unwanted detection is not a problem
- Can be surface mounted or recessed into molding
- Plug and play, and no additional wiring is required

SA40516

LED 12V/24V IR Switch - The Motion Sensor IR Light Switch detects motion (within 4") to turn on and off up to 5 fixtures or runs of light strips. Mount where a wave of the hand can activate lights (ideal for tasks where your hands may be dirty) or mount on the inside of cabinets or drawers to automatically illuminate interiors. The sensor comes with 59" (1500mm) of cable, a self adhesive pad, and a 6-port junction box. Two programmable modes are available to allow customizable behavior (hand wave vs. open close).
