### Notes

Install this product according to the installation instructions.

Provide one grounded electrical outlet within 24" (610 mm) of each component.

Measure your actual product for roughing-in details.

Pump is supplied with 24" (610 mm) grounding-type plug-in cord.

Locate the outlet behind the whirlpool, and within 24" (610 mm) of the pump.

Do not disassemble the pump or piping as this could void the warranty.

Size the drain cutout to fit the drain assembly that will be used.

Studs should be positioned roughly as shown.

End stud positioning is critical if nailing-in flanges are to be used.

ADA compliant when installed to the specific requirements of these regulations.
