Pump	120 V, 15 A, 60 Hz

Installation Notes

Install this product according to the installation guide.

Pump is supplied with a grounding type plug-in cord. Locate the outlet behind the whirlpool, and within $24^{\prime\prime}$ (610 mm) of the pump.

Do not disassemble the pump or piping as this could void the warranty.

Size the drain cutout to fit the drain assembly that will be used.

Studs should be positioned roughly as shown.
