

1. General Description

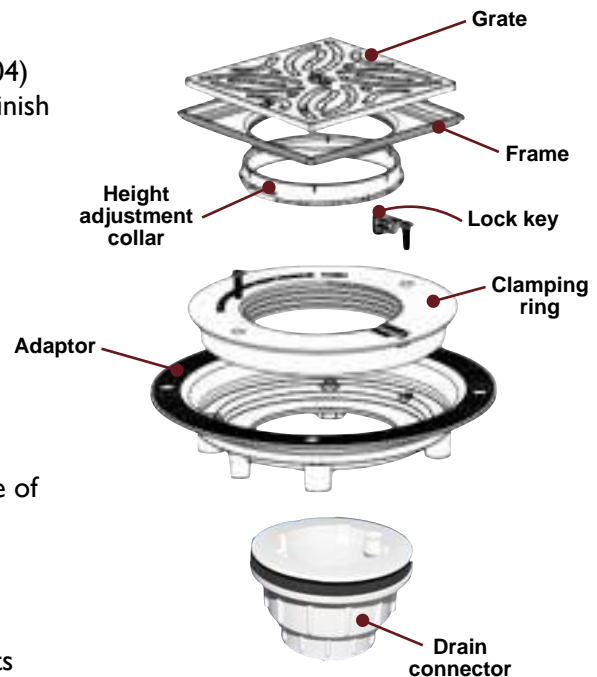

- a. Height adjustable stainless steel drain grate with adapter for installation in a Tuff Form pre-fabricated, '0' threshold shower base
- b. Assembly includes a Sioux Chief model 825 solvent weld shower drain connector

2. Item Codes and Descriptions

- a. 25402 . . . Drain assembly for tile with satin stainless steel grate
- b. ARC121 . . . Drain assembly for tile with satin brass finish stainless steel grate
- c. ARC122 . . . Drain assembly for tile with oil-rubbed bronze finish stainless steel grate

3. Physical Characteristics

- a. Grate and frame are stainless steel (SAE grade 304)
- b. Grate and frame are also available in satin brass finish and oil-rubbed bronze finish
- c. Height of grate is adjustable
- d. Drain adaptor, clamping ring, and height adjustment collar are ABS plastic
- e. Fasteners are included to secure clamping ring to adaptor and to fasten the adaptor to the shower base
- f. Sioux Chief model 825 shower drain connector is PVC plastic
- g. Drain connector fits 2" drain line
- h. Drain connector includes two washers, one made of synthetic rubber and one made of polyethylene

4. Performance Characteristics

- a. Drain adaptor fits Tuff Form shower bases
- b. Deep well in adaptor and drain connector collects large amount of water and drains it swiftly
- c. Clamping ring secures drain gasket to cover the drain adaptor-to-shower base joint
- d. Height adjustment collar allows installer to turn frame and grate to desired elevation to match tile surface
- e. Height adjustment collar can be secured with lock key
- f. Weep holes in height adjustment collar drain water that penetrates grout to waterproofing membrane
- g. Entire drain assembly installation may be performed from above shower base
- h. Drain connector is secured by hand tightening (use of "Speed Square" recommended)
- i. Drain connector rated for 8 gpm
- j. Bond drain connected to drain line with appropriate PVC weld adhesive

5. Other Information

- a. ICC-ES Listing: PMG-1222
- b. Limited lifetime warranty—see AKW warranty for details
