

Installation Instructions silQgranite Kitchen Sinks - Undermount

These instructions are for installing Samuel Mueller® undermount silQgranite® sinks.

Undermount sinks are mounted from **below** the countertop. If you are installing another type of sink, such as a Drop-In (Top Mount) sink which is installed on top of the counter, please refer to instructions specifically for those sinks.

ATTENTION INSTALLER:

Samuel Mueller® recommends that undermount sinks and routing of solid surface material should be installed by a professional installer for best results.

Samuel Mueller® undermount sinks should only be fastened to a solid surface countertop (i.e. granite, quartz, marble, stone, solid surface material).

Requirements vary for installation in a granite, marble, stone, or butcher block counter top. Please contact your fabricator for specific details.

Samuel Mueller® is not responsible for sink or countertop if damaged during installation.

Remember, it is your responsibility to follow all local plumbing and building codes.

Inspect sink for damage prior to beginning installation. Do not install a damaged unit.

The warranty will be voided if these installation instructions are not followed.

Templates are supplied only as a guide. The physical use of the sink will ensure a more accurate cutout.

The instructions that follow are for installing a Samuel Mueller® undermount silQgranite® sink. Be sure to read all instructions completely before beginning installation.

NOTE: The sink provided is an undermount and is to be installed with 1/8" countertop overhang. The template provided with the sink illustrates the appropriate countertop cutout for an undermount installation - do not use this template for top mount installations.

Sink installation recommended for professional installers only.

1. On underside of top locate eight points around the bowl approximately 1" from bowl flange. For a tighter installation, the use of all eight clips is recommended.
2. Drill eight holes 0.22" at marked locations for brass inserts.
3. Tap in brass inserts, slotted end first.
4. Next, with unit face up, clean top of bowl flange and underside of top around cutout with denatured alcohol.
5. Apply a narrow bead of silicone caulk to top inside edge of bowl flange and position bowl.
6. Mount hardware by first threading wing nut (if included) well up on screw near the head. With washer (if included) and slotted clip in place, tighten screw securely to lock in brass insert.
7. When bowl is correctly positioned over cutout, tighten wing nuts to secure bowl.
8. Remove excess sealant from inside lip.

SAMUEL MUELLER® LIMITED LIFETIME WARRANTY

All Samuel Mueller silQgranite® sinks feature a LIMITED LIFETIME WARRANTY to be free of all manufacturing defects under normal use.

LIMITED SINK WARRANTY

Samuel Mueller® will replace without charge, (excluding labor & transportation costs) any silQgranite® sink supplied by Samuel Mueller® that is proven to be defective, with an equivalent replacement, within the specific appropriate period from date of purchase, to the original owner, provided it has been used solely in a residential application and installed in accordance with the Samuel Mueller® installation instructions, used and cleaned as recommended, and not damaged due to abuse, misuse, or negligence. For installed warranty concerns, please contact Samuel Mueller® directly for further information and proper documentation. In the event of a warranty claim, the owner will be required to provide proof of purchase in the form of sales receipt.

This warranty will not cover any damages which might be caused by the product. (Some states do not allow such limitation, so this reference may not apply to you.)

Samuel Mueller® reserves the right to inspect any sink reported to be defective prior to replacement of the sink. All decisions are final. Replacement cost EXCLUDES transportation and any labor costs for the removal or reinstallation.

Samuel Mueller® shall not be liable in case of:

- Damages resulting from abuse, such as heavy impact or dropped objects
- Improper applications (such as exposure to corrosive chemicals, photographic solutions, etc.)
- Any modifications made to the product after it left Samuel Mueller® premises
- Improper installation/modification
- Improper care or maintenance
- Commercial application
- Scratches - Due to use
