

1. General Description

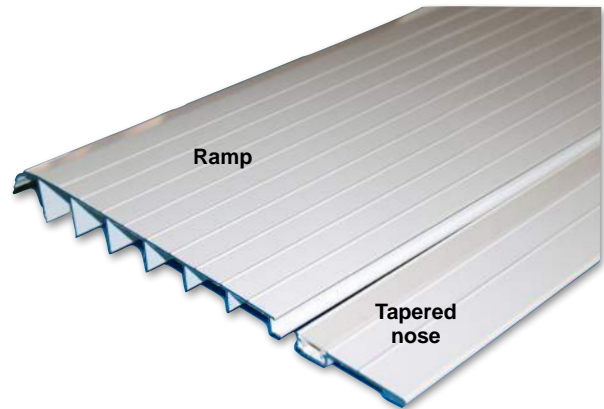

- a. Ramp kits for access to a Mullen shower base installed on top of a floor

2. Item Codes and Descriptions

- a. 26271 . . . Ramp kit for 60" alcove Mullen models
- b. 26272 . . . Ramp kit for all corner Mullen models

3. Physical Characteristics

- a. Made of aluminum
- b. Powder coated
- c. Slope gradient: 1:8
- d. Each kit includes ramp(s), tapered nose(s) and cover strip(s)
- e. 26272 also includes a corner segment to connect ramp sections
- f. End caps included
- g. Length:
 - i. 26271 kit — $56\frac{3}{4}$ " long (to fit all alcove Mullen models)
 - ii. 26272 kit — $70\frac{3}{4}$ " and $38\frac{1}{4}$ " sections (to fit all corner Mullen models)
- h. Colors:
 - i. Ramps—white
 - ii. End caps—black

4. Performance Characteristics

- a. No rust construction
- b. Curved flange of ramp fits into Mullen's clamping channel for a watertight seal
- c. Ramps may be installed with or without the tapered nose section(s)
- d. Ramps are designed to mate with tile
- e. By adding the tapered nose, ramps can be used on top of any decorative flooring
- f. Mullen depth of installation varies depending on ramp configuration
